

## Konica Minolta Glass Tech (M) Sdn Bhd

**KONICA MINOLTA**, a global corporation that leads the market by advanced technologies and reliability, being awarded “Global Recognition as Top Tier Company in Corporate Sustainability Assessment ” in year 2013. Today, the Group has annual sales more than ¥1 trillion (yen), conducts business operations in approximately 40 nations worldwide and has approximately 36,000 employees.

### TECHNOLOGIES

#### World Class Technologies for Freely Manipulating Life

Konica Minolta has placed itself at the forefront of optical technologies through the high-dimensional fusion of not only optical and materials technologies but also technologies in areas like nanofabrication, imaging, coating, and precise driving. Through the free manipulation of light, we have established a unique presence in the field of optical devices by enabling high-value-added manufacturing at a level unmatched by our competitors. As experts in the field, we will continue to offer customers the world’s leading technologies in the manipulation of light.

**KONICA MINOLTA GLASS TECH MALAYSIA**, an innovative manufacturing company at Ayer Keroh, Malacca, started with supplying glass substrates with high-density storage for hard-disk drives and ambitious in producing an array of components that are essential to the fields of digital consumer electronics in the near future, in line with our aim to become the world’s best optical-device developer and manufacturer.

We aim to provide inspired creativity in developing most advanced optical components, units and systems for various applications by becoming an innovative, technologically sophisticated, reliable and market-leading global company that is able to enhance corporate value and respond to the expectations of its stakeholders through corporate creativity.

In driving the evolution of digital electronics with today’s most advanced technology, we invite highly motivated and dynamic individuals to join us, discover and create your future in Konica Minolta.
